Today We Go Even Further

Fifty years ago-before Sir Joseph Lister founded antiseptic surgery-surgical operations often were followed by gangrene and blood poisoning.

Today such consequences are rare exceptions, and medical science has so extended the idea of sickness prevention that the great plagues of the past no longer ravage the world. Serums, vaccines, anti-toxins, sanitation - all stand guard before the citadel of health.

Now science has developed an effective agent against that general condition that underlies 90% of all human disease constipation.

That effective agent is Nujol.

Leading medical authorities agree that pills, salts, castor oil, etc., simply feer and weaken the system. Nujol softens the food waste and encourages the intestinal muscles to act naturally, thus removing the cause of constipation and self poisoning.

Nujol helps Nature establish easy, thorough bowel evacuation at regular intervals—the healthiest habit in the world. Get a bottle from your druggist today.
